

**PSYCHIATRIC
EPIDEMIOLOGY**

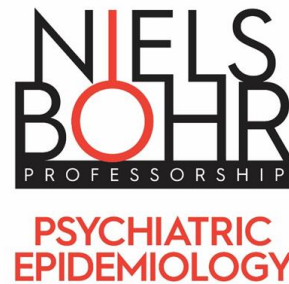

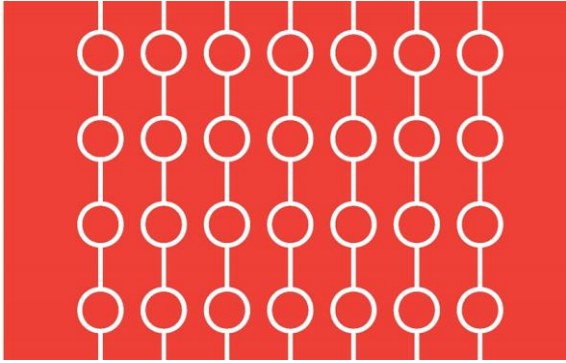

**NBP Symposium –
Psychiatric Epidemiology 2018**

30 and 31 May 2018

**NBP Workshop –
Unpacking the Global Burden of Disease**

28 and 29 May 2018

Please join us for NBPE18, a symposium designed to catalyze innovations in psychiatric epidemiology.

The 2018 Symposium will focus on several themes:

- The burden of mental disorders
- Mental health comorbidity
- Interactive data visualization
- Combining genetic and register-based information.

The symposium will be single track, with overviews by experts in the field and a limited number of free communications (oral or poster; deadline 13.4.18).

In addition, we will be hosting a two day workshop on the Global Burden of Disease.

Registration and Fees

NBP Symposium – Psychiatric Epidemiology 2018, 30 and 31 May 2018

[Registration is free here](#)

NBP Workshop – Unpacking the Global Burden of Disease, 28 and 29 May 2018

DKK 2000/1000 (students) - [Register here](#)

Further information: Signe Nielsen, sign@econ.au.dk

Venues

NBP Symposium: Aarhus University. Building 1252. Bartholins Allé 3, DK-8000 Aarhus C

NBP Workshop: Aarhus University. Building 1422. Fredrik Nielsens Vej 2, DK-8000 Aarhus C

Reception

Wednesday 30 May 2018, 18.00 at Sunset Lounge – Your Rainbow Panorama, ARoS Art Museum, Aros Allé 2, DK-8000 Aarhus C.

Speakers

Esben Agerbo
National Centre for Register-based Research,
Aarhus University

Unpacking the Global Burden of Disease

A 2 day workshop on how to use
1 billion findings in your research!

The Global Burden of Disease Study (GBD) provides estimates of burden for over 300 diseases and injuries. To date, it is the largest and most comprehensive effort to describe the impact of disease, injuries, and risk factors in 195 countries. GBD findings are freely and publicly available but it is important to know how to access and use this information.

This workshop will be run by the Psychiatric Epidemiology and Burden of Disease Group (PEABOD) at the Queensland Centre for Mental Health Research which is affiliated with the School of Public Health at UQ and the Institute for Health Metrics and Evaluation at the University of Washington, Seattle. Our team is responsible for all findings relating to mental and substance use disorders in GBD. We are “in the trenches” of GBD and will be able to share our knowledge and experience with students, academics, clinicians, and others in the health field.

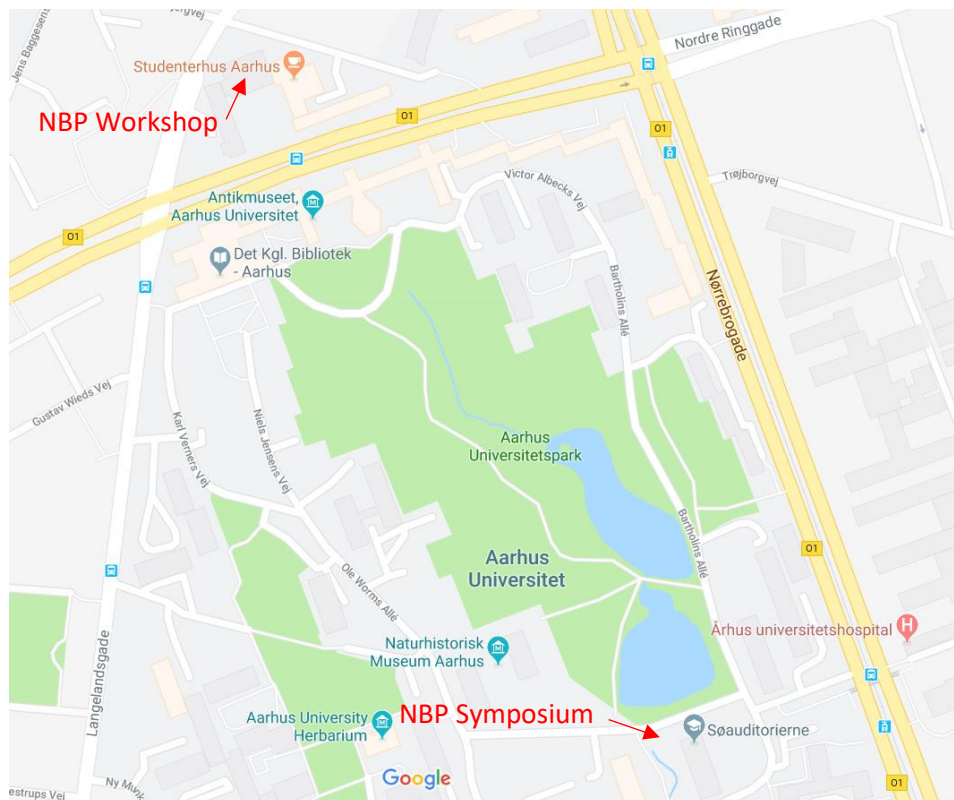

The workshop will provide an opportunity to learn about the methods used in GBD and how to access, interpret, and apply GBD findings in research and in health policy and planning. There will be speakers from a range of disciplines, and presentations will incorporate live demonstrations. Importantly, the workshop will encourage open discussion and an exchange of ideas around the applications of GBD data.

Dates: Monday 28th and Tuesday 29th May 2018

Place: Aarhus University. Building 1422. Fredrik Nielsens Vej 2, DK-8000 Aarhus C

Cost: Full registration DKK 2000
Student registration DKK 1000
